

Food for thought
Did you know?

- Maple syrup is considered to be the first crop of the year
- Simcoe County has over 1400 registered farms that employ more than 3300 people
- Many farmers in Simcoe County raise "heritage" vegetables and animals, which were common 50 to 100 years ago, but aren't used in modern large-scale food production
- It's estimated that every third bite of food that we eat relies on pollination
- Milk produced from Canadian cows is 100% hormone and antibiotic free – look for a blue cow or maple leaf logo on your dairy products to ensure you're buying Canadian dairy
- There are 18 Farmers' Markets in Simcoe County – many run all year long

What is Artisan Agriculture?

- An approach to agriculture that is directly linked to a neighbouring urban population
- Produces high quality niche items
- Characterized by a lack of chemicals
- Relies on pasture-based grazing
- Utilizes a creative systems of crop and livestock rotation
- Determined by the climate and season
- Provides farmers with a sustainable livelihood

What is Farmgate?

- Farmgate sales are goods that are purchased directly from a farm, without markup added by retailers
- Farmgate sales are a great way of sourcing fresh, local food
- Produce, eggs and meat are often sold as Farmgate items
- Many farms sell their products from stands at the end of their laneway (laneway honor stands) or from their home
- Buying via Farmgate is the best way to get to #KnowYourFarmer
